VENUS

CUPID

3-person deluxe hot tub heaven for your own home or garden.

The Venus range is designed in response to the demand for a higher specification smaller-sized hot tub & offers deluxe three-person hot tub bathing. The Venus and the Cupid hot tubs come complete with a lazy lounge seat, not usually available on tubs of this size. With a craftsman-built cedarwood cabinet on both models, the Venus range is perfect for those short on space or simply looking for a smaller tub without compromising on specification.

The Cupid, with 20 hydromassage jets, including two jumbo jets, runs on a standard 13-amp supply and offers an opportunity to enjoy the world of hot tub bathing at great value for money.

Add an air blower and 14 bubble injectors to the Cupid, and the Venus offers the benefits of dual hydro and air massage, with the same multi-position seating, still running on a standard 13-amp supply. The Venus is one of the highest specification 3-person hot tubs on the market, with a specification similar to those of some much larger hot tubs. Offered at a great-value price, this new range is a winner!

MANUFACTURED IN THE UK

Sold direct, cutting out the 'middle man' and saving money, without compromising quality or service.

We use the highest quality materials and the most advanced components available and adhere to strict quality controls. Our hot tubs are enclosed in craftsman-built cabinets of western red cedarwood, complete with a hard-wearing plastic base.

We are proud to be able to quote a standard delivery time of two weeks from receipt of order. A small refundable deposit will secure your order and reserve your delivery date. We accept both deposit and balance payments by credit or debit card.
