

WeatherTex

WeatherTex is Softub's marine-grade vinyl used to encase all components of the Softub spa. The superior

Available in an array of designer colours, WeatherTex contributes to the luxury of the Softub experience by providing supple softness and enduring good looks.

weather resistance and durability of WeatherTex allow the Softub spa to be located outdoors in any climate and keep its great look, indoors or out. A special process of heat sealing and industrial-class stitching provides years of dependable service.

Tested, Approved, and Made in the USA

All Softub spas are designed and built with the highest quality standards to give Softub owners a reassuring peace of mind. All Softub models go through rigorous testing prior to leaving the Softub factory. The Softub spa is made of American components and proudly built in the USA.

The Softub corporate office and manufacturing facility near Los Angeles, California.

"S" Series Softub Spas

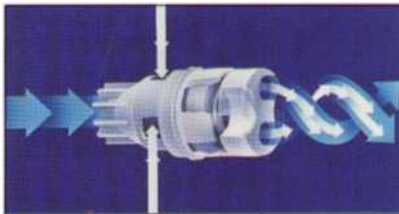

Softub's "S" Series represents the most advanced design in portable, full-featured spas.

(Standard Jet Design)

Patented turbo-boost design accelerates the mixture of air and supplemental water drawn from the spa.

Powerful hydrojets are strategically positioned around the interior of the tub for exhilarating, churning jet action. A central air control switch allows adjustment of the bubbles in the jets with just a touch of the finger.

(Optional Jet Design)

Powerful streams of water and air create a swirling, pulsating massage as the jet rotates.

The interior of a Softub spa is a haven of padded comfort. You won't find a maze of plastic obstacles to restrict freedom of movement or to limit positioning. What you will

Get your Softub Spa Today, Enjoy it Tonight!
